# FSG Announces COO of Construction

## Mark Mitchell

---

---

*"I am excited to step into the new role of COO of Construction and look forward to working with all of the construction operations to continue to grow the FSG Institution across the country." - Mark Mitchell*

---

As a first-class electrical constructor, one of the greatest hurdles the FSG Institution faces is managing the risks and benefits that come with being a part of such a challenging, yet rewarding business. As a constructor, FSG must have a solid strategy, a strong foundation, and a steady hand on the wheel to guide the Institution to sustainable and scalable success.

---

---

With this in mind, FSG is excited to announce Mark Mitchell as the person who will take helm as the leader of The FSG Construction business as the Chief Operating Officer of Construction. As an experienced and respected member of the industry, Mark has successfully led teams through some of the biggest projects and some of the greatest successes an electrical constructor could hope for. Mark is a strong strategist, a dedicated mentor, and focused on the success and empowerment of all.

In this new role, Mark will be responsible for FSG's Construction business as a whole and will be exploring ways to stabilize and grow the existing construction business at FSG. Mark will be seeking out new business opportunities for FSG in both existing markets and new ones.

Join us as we congratulate Mark on his new role and thank him for taking on this incredible challenge that will, no doubt, contribute to taking FSG to the next level!
